ALLOWANCE

Allowable Subject Matter

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance:

Note the claims in the instant case have similarities to the claims of parent case US 6,685,088, which has been allowed.

The examiner could not find a teaching or suggestion in the art where a pin number is applied in a transaction to select a particular financial service as a separate function from account authorization. Cuervo (US 6,405,182) teaches (column 2, line 59) for example a second pin number, but that pin number is used for additional security and not to associate with particular services. Pitroda (US 5,884,271) teaches a card account where multiple services occur from a single account, but this does not occur through a pin number entry system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
